### OUR 2024 PERFORMANCE IN FIGURES

### OUR SUSTAINABILITY STRATEGY

**We add value to the sustainable economic development of our country.**

As a holding company operating in various sectors, especially flexible packaging, we support Türkiye's sustainable development by earning significant foreign exchange through our export activities and creating employment opportunities.

**We add value to the future of our planet.**

Our goal is Net Zero. In line with this, we regularly measure our environmental footprint and develop action plans to reduce our environmental impact, implementing them end-to-end across our entire value chain to contribute to our country's 2053 Net Zero Carbon Target.

**We add value to social life with sustainable solutions.**

We work tirelessly to improve the social life and well-being of our people. In all our activities, we prioritize the benefit of society and facilitate social life with our sustainable packaging solutions. We shape all our activities with the awareness that the most important value is "human."

### CORPORATE MEMBERSHIPS AND INITIATIVES WE SUPPORT

### OUR SUSTAINABLE PRODUCTS

**ReBorn and PapBorn Product Families, Refill Design**  
Within our Group Companies, at Bak Ambalaj, we have brought the "ReBorn Product Family," which offers 100% recyclable and mono-material structures, into full compliance with the European Union's new PPWR regulations. We further enhanced our contribution to the circular economy by adding the "PapBorn" product family, containing up to 100% paper, and the refillable "Refill" packaging design to our portfolio.

**Sustainable Film Solutions**  
In collaboration with our Polibak and Bareks Companies, we manufacture ISCC Plus-certified films utilizing bio-based raw materials sourced from waste vegetable oils and post-consumer recycled (PCR) materials. Additionally, we are developing innovative solutions such as ultra-high barrier BOPP films and 100% recyclable mono-PE structures that can replace non-recyclable packaging.

### OUR QUALITY CERTIFICATIONS

We never compromise on quality; we adhere to standards and certify our work.
